PURPOSE-BUILT TO A HIGHER STANDARD.

Working in the forest is demanding, and your equipment needs to be up to the challenge. When you go with rugged Volvo wheel loaders and excavators — purpose-built for forestry applications — you get superior boom and arm construction and powerful engines, plus smooth hydraulics that keep you up and running comfortably shift after shift.

At Rudd Equipment, we support the construction and forestry industries with 13 service branches across nine states. Along with our award-winning master technicians, we can deliver equipment, replacement parts and service to your site by the next morning. It's that kind of 24/7 service that proves how committed Rudd is to going the distance for you. **Call your nearest Rudd location for your heavy equipment needs or visit us at ruddequipment.com.**

LETTER FROM THE PRESIDENT

Welcome to the Ohio Forestry Association (OFA) 2022 Paul Bunyan Show—one of the largest and oldest forest-industry shows in the country!

The Paul Bunyan Show is an annual celebration of Ohio's forest products, and the diverse group of people who ensure it remains a major industry in the Buckeye state. The Ohio forest products industry is a vital part of the state economy, employing over 124,000 individuals and contributing over \$28 billion in economic activity.

We hope you enjoy the roughly 130 vendors showcasing their most-exciting products—including many live equipment demonstrations. Remember to check out our educational sessions held in the Education Hall. Also, enjoy the fun and entertainment of the Great Lakes Timber Show and lumberjack competitions. The wood auction will be held Sunday at 2:00 p.m., and is the perfect opportunity to buy lumber, live-edge slabs and more.

While strolling the show, be on the lookout for several of your favorite internet personalities, who have traveled here to showcase the show on their channels and meet with their fans. When you get hungry follow your nose to one of the many food vendors where you can enjoy Bunyan Burgers, BBQ, homemade ice-cream and more (see the full list of options on page 23).

Please take a moment to stop by the OFA booth to say "hello," and to get some great Paul Bunyan Show merchandise. While there, take your best guess at the board footage of the logs on the truck for a chance to win half the pot! All proceeds support the OFA Foundation and its programs, including Camp Canopy—a week-long camp for high-school students interested in learning more about forestry and wildlife—as well as numerous college scholarships and charitable grants.

On behalf of the sponsors, exhibitors, vendors, dedicated staff, and members of the Ohio Forestry Association, we are glad you're here and hope you have a wonderful time!

Sincerely,

Mike Krol, President
Ohio Forestry Association

OUR MISSION:

The mission of The Paul Bunyan ShowSM is to provide access to current knowledge and technology, which enhances the quality of life and market competitiveness of individuals, families, industries, and communities. This mission is accomplished by showcasing research, products, services, and experience through educational exhibits, presentations, and demonstrations on the forest industries, natural resources and lifestyles.

IN MEMORIUM

Mike Hopkins

February 15, 1962 - May 2, 2022

It is with heavy hearts that we fondly remember Mike Hopkins, who passed away suddenly on Monday, May 2nd, 2022 at the young age of 60.

For nearly 40 years, Mike was the familiar, fun and exuberant announcer for The Paul Bunyan Show's lumberjack competitions. A consummate presenter, he was at his best when fully engaging with the crowd and focusing their attention during the more nail-biting, competitive moments. While adept at highlighting world-class performers and performances, Mike was also quick to whip the crowd into action as cheerleaders for any competitor who found him or herself lumbering away long after the result was decided. Regular show attendees will also remember Mike fondly for cracking jokes and entertaining the crowd in between the competitive events, occasionally at the light-hearted expense of the competitors.

Mike was a one-of-a-kind individual. He will be sorely missed.

In addition to his annual role with The Paul Bunyan Show, Mike was a territory manager for Bryan Equipment Sales for 32 years. Mike was also an avid sportsman, musician and a member of the Georgetown Church of Christ, the National Wild Turkey Federation and Whitetails Unlimited.

View Mike's full obituary at <https://www.cahallfuneralhomes.com/obituary/Mike-Hopkins>.

The DINO RXT series of self-propelled MEWPs is the right choice whenever there is a need to work on soft or inclined ground, or whenever there are weight restrictions in the work site. Boasting 92 and 72 feet of working height respectively, this machine conquers every arborist job with ease. The powerful Kubota engine combined with the low overall weight and low center of gravity of the machine allows to move easily even if ground conditions are difficult. Automatic leveling in up to 8° inclination adds to the versatility of the machine.

WOOD AUCTION

RUGGED.

Precision Whole Tree Chippers are built stronger than the competition, and have a reputation for trouble-free service. They have rugged frame construction, over-sized stabilizers, air compressors, trash separators, and more powerful fans that pack more chips per van.

Since 1964, Precision Husky Corporation has lead the industry, producing the highest quality, most rugged equipment available. You can invest in our equipment with confidence, and know it will perform for many years to come.

Call us today to discuss your needs, as well as the newest options available for our line of sawmill, logging and wood waste recycling equipment.

The *smartest* way through the woods

HARD IRON THAT THINKS HARD.

You know better than anyone that your iron needs to be both hard and smart to keep the timber moving. John Deere forestry technologies offer fast, accurate diagnosis of machine issues, rapid service response, and production tracking to maximize your efficiency and productivity. With real-time mapping, jobsite machine management, and more, we know the smartest way through the woods. To learn more, contact us today.

FANS OF OUTDOORS WITH THE MORGANS? MEET MIKE AND MELISSA MORGAN AT THE PBS TODAY!

Hosts of YouTube Channel's "Outdoors with the Morgans" Mike and Melissa Morgan are at The Paul Bunyan Show! Stop by and say "hello!"

VISIT US AT BOOTH #304

Friday 12:00 pm - 2:00 pm / 2:00 pm - 4:00 pm

Saturday 10:00 pm - 12:00 pm / 2:00 pm - 4:00 pm

Sunday 10:00 pm - 12:00 pm

Mike and Melissa Morgan from "Outdoors with the Morgans" YouTube Channel live in Western PA. They enjoy the finer things in life like chainsaws, sawmills, tractors, firewood and quality PA lumber.

They spend their days working on their land, cutting wood and lumber, and enjoying time with their four children, two grandkids and three Golden Retrievers.

STIHL

MS 500i

ELECTRONICALLY CONTROLLED
FUEL INJECTION CHAINSAW

"The MS 500i is unstoppable - fast throttle response, excellent power, and lightweight."

700 YDS. / HR.*

WHO DOES THAT?

*700 yds./hr. based on initial grind, 6"-8" screen setup.

Terex CBI owners, that's who. The #1 reason grinder owners buy? Throughput. And, any way you slice it, Terex CBI grinders are engineered to own the production market. The CBI 6800CT horizontal grinder delivers on the other three purchase-decision variables too—serviceability, reliability and support.

“The CBI 6800CT’s production rate is great. Morbark 6400 finish grind was 180 yards an hour. The CBI is right around 300.

Matt Brun | Champion Landscape Equipment and Supply

Learn how Champion Landscape and Supply dialed in huge throughput increases, and an over-20% increase in operating margins with their CBI grinders.
